

Every recruiter has candidates they don't have roles for, and every recruiter is sometimes beaten to filling a role by a rival recruiter. That's £000s in lost revenues every month. Splitfee.org provides the answer. Recruiters who are not in splitfee.org are missing out on a lot of money! Let us explain...

Unplaced Candidates in your database are lost Revenue:

SplitFee.org offers a new channel for placing candidates that you don't have roles for, unlocking new revenue streams for recruiters.

How much money do you lose to other recruiters?

Filling a role quickly and having quick access to the right candidates earns you money. If you are working a role, you can add it to SplitFee.org and submit your best candidate along with the best offered via SplitFee.org. If your own candidate gets the job you get the whole fee. If the SplitFee candidate gets the job you still earn money where you may have lost out to another recruiter.

Your client's sometimes ask for candidates outside your area of expertise.

Add them to SplitFee.org and fill the role, impressing your client. Use this approach to test new sectors.
